Please join us for a NEW and exciting series of quality art classes **Mythical Creatures - Magical Places and Cartoon, Anime and Manga!**

Fantasy and cartooning is a combination of subject and style that go together perfectly! Create unicorns in forests, gargoyles on buildings, wizards casting spells, fairies in flight, dragons and castles, gnomes and more all through the use of various media emphasizing your own personal style! In cartooning you'll learn to draw your favorite cartoon characters and superheroes and create your own characters. Tips and techniques are taught for both traditional cartooning, anime and manga. We will introduce you to the fundamentals of drawing, design and composition, painting and more! A variety of art materials are used while students discover their own creativity and imagination. Watercolor and pastels will be included in this fun-filled class.

The minimum and maximum # of students for this class is 8 and 22.

We may need a parent volunteer to assist with the class. If you are interested please indicate so when you register. If you do help with the class your child can attend for free. Sign up early!

Please call The Art Room at 299-1515 with any questions.
