

HEALTH REQUIREMENTS For New Students 2017-2018

New students must comply with California Department of Public Health and Diocese of Oakland School Dept. regulations prior to entry. Please submit all documentation to the school office by **Friday, June 30, 2017**. If your child has a physical scheduled after June 30, please contact the office. **No student will be allowed entry without required immunizations record, TB risk assessment signed by the physician, and TB documentation if >1 risk factor.**

Kindergarten:

- A complete physical exam dated within 6 months of entry (use the form provided or submit a detailed health exam from the physician, such as Kaiser's form)
- Required immunization records (see Guide to Immunizations Required for School Entry)
(As of July 1, 2016, SB277 requires all school children to be fully vaccinated, regardless of parents' personal or religious beliefs)

- Verification of a dental visit (dental form, letter, or invoice with students name)

- Tuberculosis (TB) Screening within 6 months of entry to kindergarten

*All students must have a TB screening completed prior to entrance to school. **The TB risk assessment is mandatory for kindergarten and should be done within 6 months of entry. If >1 risk factor present, must also present result of the PPD/Mantoux skin test, or a physician's statement of "negative symptom screening," or a physician's statement of "no risk."***

Grades 1-7:

- A complete physical exam form dated within 18 months of entry (use the form provided or submit a detailed health exam from the physician, such as Kaiser's form)
- Required immunization records (see Guide to Immunizations Required for School Entry)
- Verification of a dental visit (dental form, letter, or invoice with students name)
- Tuberculosis (TB) Screening within 2 years of entry to Grades 1-7

*All students must have a TB screening completed prior to entrance to school. **A TB risk assessment performed within 2 years of entry is mandatory for students in Grades 1-3. If >1 risk factor present, must also present result of the PPD/Mantoux skin test, or a physician's statement of "negative symptom screening," or a physician's statement of "no risk."***

Other

Care Plan for Children with Special Needs If your child has a serious or chronic health condition (i.e. asthma, allergies, diabetes, seizures, etc.) please obtain a form from the school office or website. This form is for medication to be kept and/or administered during school hours and must be signed by the physician. The school office will accept other medical forms, such as those from Kaiser.

Permission to Carry and Self Medicate This form is optional and only required if your child's well-being is seriously in jeopardy unless the inhaler/medication/epi-pen is carried on his/her person, and you wish your child to carry their medication and self medicate. **The Care plan for Children with Special Needs must accompany this form.**
