- A complete physical exam dated within 18 months of entry. Use the form provided or submit a detailed health exam from the physician, such as Kaiser's form
- Proof of immunizations required for entry. (see Parents Guide to Immunizations Required for School Entry)
- Verification of a dental visit (dental form, letter, or invoice that includes name of student, dentist, and dentist address)
- Tuberculosis (TB) Screening within 2 years of entry.
 - ***A TB risk assessment performed within 2 years of entry is mandatory for Gr. 1-7 students. All new students must submit the risk assessment form signed by the physician.***
 - ***If >1 risk factor present, please also present one of the following: the result of the PPD/Mantoux skin test," or a physician's statement of "negative symptom screening," or a physician's statement of "no risk."***

Other

Care Plan for Children with Special Needs If your child has a serious or chronic health condition (i.e. asthma, allergies, diabetes, seizures, etc.) and medication must be administered at school, please submit this form, signed by the physician, to the school office. It may be obtained from the school office or website. The school office will accept other care plans, such as those from Kaiser.

Permission to Carry and Self Medicate This form is only required if your child's well-being is seriously in jeopardy without the inhaler/medication/epi-pen carried on his/her person, and you wish your child to carry their medication and self medicate. **The Care plan for Children with Special Needs must also be submitted.**
